a love story worth re-living, over and over again

Meet Madison

Owner and Lead Videographer

The story begins like this- My husband, Preston, and I became a couple at just 13 years old (in middle school) when we were cast as "Belle" and "The Beast" in our school's production of Beauty & the Beast (hence, Tale as Old as Time Media!) Ever since our awkward, middle school, on-stage kiss, we have been inseparable, and I have been filming and capturing our relationship the whole time!

After getting married in 2018, I got all of the raw footage (from my own wedding), and started editing it together, and discovered how incredible it was to look back on the BEST day of my life in a cinematic way. After seeing how much I loved editing together my own wedding footage, Preston encouraged me to offer to film and edit for others. & I am so thankful he did!

We have two boys, a 3 year old and a 1 year old, and Tale as Old as Time Media has allowed me to be more present with them, while also pursuing my dreams. I am forever grateful for every couple who has trusted us to capture their day!

Who is Lighthouse Creative?

I am so glad you are here! My name is Rachel Lumbreras and I am the founder and lead photographer of Lighthouse Creative.

In 2019, my husband surprised me with a camera in an attempt to try and spark a desire for creativity in me and I didn't even look at it for months!

Later that year, my friend got engaged! Something inside of me was telling me to bring my camera to the party, so I did! I captured the little details, the couple's photos, and precious moments with her grandfather, who would later pass away before the big day. What I did for her that day was more than photos... it was allowing her to be present with her family, it was freezing fleeting moments, it was celebrating their love. The feeling I felt was all- consuming.

I'm now a FULL-TIME Wedding & Portrait photographer. I truly value building community with my clients and being in their lives! If I am able to connect with the person on the other end of the lens and tell your story authentically and creatively, that's a win for me!
